

# SONGSTAB BC-540

## Technical Information

<b>1. Components</b>	Cd-Ba-Zn organic liquid complex	
<b>2. Properties</b>	Appearance	Reddish Brown Clear Liquid
	Specific Gravity(25°C)	1.061 ~ 1.091
	Refractive Index(25°C)	1.478 ~ 1.498
	Viscosity(cps/25°C)	Max. 100
<b>3. Characteristics &amp; Usages</b>	<ul style="list-style-type: none"><li>* One-package type stabilizer with lubricants.</li><li>* Excellent heat stability, weather ability and process ability.</li><li>* Good transparency and non-blooming.</li><li>* General flexible and semi-rigid film and sheet for calendaring.</li><li>* For additional information please consult the MSDS</li></ul>	
<b>4. Physical Form</b>	LQ (Liquid)	
<b>5. Packing unit</b>	200Kg Steel drum.	
<b>6. Recommended formulation</b>	PVC	100
	DOP	20 ~ 60
	EPOXY	0 ~ 3
	BC-540	1.5 ~ 3.0
	Stearic acid	0 ~ 0.2
