SONGSTAB BC-540

Technical Information

1. Components Cd-Ba-Zn organic liquid complex 2. Properties Appearance Reddish Brown Clear Liquid Specific Gravity(25℃) 1.061 ~ 1.091 Refractive Index(25℃) 1.478 ~ 1.498 Viscosity(cps/25℃) Max. 100 3. Characleristics & Usages One package type stabilizer with lubricants. Exceller heat stability, weather ability and process ability. * Good/transparency and hom blooming. * General lekible and semi-rigid film and sheet for calendering. * For additional information please consult the MSDS 4. Physical Form LQ (Liquid) 5. Packing unit 200Kg Steel drum. 6. Recommended PVC 100 formulation DOP 20~60 EPOXY 0~3 BC-540 1.5 ~ 3.0 Stearic acid 0~0.2
